what is chronicle

Chronicle, a unique combination of existing ideas, refines the expected casegood to be something more: modern, elevated, inviting.

Designed in collaboration with Jess Sorel, Chronicle balances the need for choice with the ease of ordering. Chronicle has an extensive selection of neutral wood finishes, which can be combined in a single setting to create a unique and unexpected look. Elegant and thoughtful details from handle options to leg styles, as well as integrated dimmable cabinet lights take Chronicle a step ahead of other casegoods.

EASE OF SPECIFICATION

Model options and finishes are optimized in one product code. Unique design flexibility is also available with configurable credenza components.

Configurable Credenza components can be used to create customized storage solutions or off-module configurations not available with Preconfigured Credenzas.

Only five product codes are required to create this office:

- 1 Preconfigured Triple Credenza (C3HEWPU24090A)
- 2 Run-Off with U-Leg (CRHL3066NRU)
- 3 Combination Wall Panel with Open Shelf + Tackboard (CWCH3H15090FS)
- 4 Wardrobe Tower (CT1EHFL5E2418NA)
- 5 Mobile Pedestal (CMPDXIF2015A)

FINISH APPLICATION

Each furniture element has multiple areas to apply various wood finishes. The price remains the same regardless if one or multiple finishes are selected.

For credenzas the areas of finish applications are the top, case construction, along with the door/drawer fronts and visible shelves. Shelves behind doors will match the case construction finish.

Wood finishes offered on Chronicle include: Natural Veneers 2, 3 & 4, Chroma Wood and Rustic Oak.

Blackened Oak Flat Cut

Desert Fawn

Chromawood: Sand

Combination: V2/V3 Natural Walnut + Chromawood Anthracite

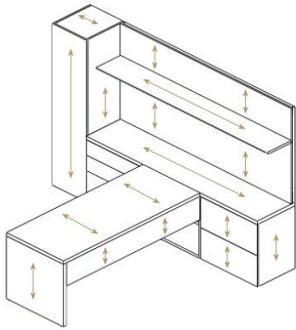

Credenza Finish Applications

- ① Case Finish: Veneer
- ② Fronts and Visible Shelves: Veneer (Shelves behind door will match case finish)
- ③ Top: Veneer
- ④ Pulls and Base: Metal Finishes

GRAIN DIRECTION

Natural wood veneers are hand selected and matched per office suite, unifying each component to come together as a whole.

Case Direction: Vertical
Rustic Oak, Natural Veneers 2 and 3

Case Direction: Horizontal
Natural Veneers 4

Grain Direction Exceptions:

- Desks, Tables and Credenza Tops will have long grain applications
- Run-Offs and Bridges will have short grain applications
- Chroma Wood will match the grain direction of the other components in the office suite

WIRE MANAGEMENT

Cable routing cut outs and access points are available with each applicable product as either a specifiable option or as a default.

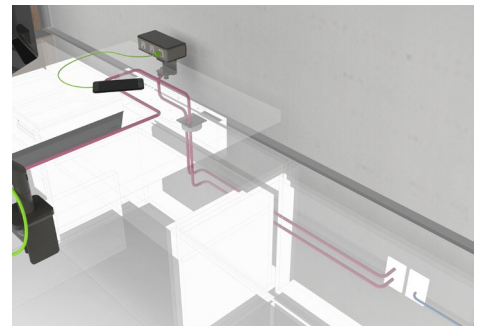

These options allow cables to be concealed against the wall, behind cabinetry for a clean aesthetic. Access points, such as wall access panels, allow easy access to cables and wall receptacles after installation.

Comprehensive electrics program, from casual power to permanent electrics

Under worksurface wire management

Cable routing through backs of storage

STANDARD DATUMS

There is no need to learn specific heights in order to plan with Chronicle. Heights are represented in numerical values of 1H to 6H. Lower and upper elements are added together to achieve overall datums of 5H (70-1/4") or 6H (84").

Credenzas are offered in two heights, which are noted in their product codes:

- H (29") or L (22-1/4")
- H credenzas are paired with H wall elements.
- L credenzas are paired with L wall elements.

PLANNING STYLES

From beautiful built-in aesthetics for larger spaces to minimalistic or modular elements for smaller spaces.

PLANNING LAYOUTS WITH FINISH PALETTES

Design freedom is built into the individual product structures, along with clear examples of design capabilities, planning and tone.

Standard Finishes available are Natural Veneers 2, 3 & 4, Rustic Oak and Chroma Wood.

Neutral does not have to be one color.

CREDENZAS OVERVIEW

Credenzas provide lower storage options and supports.

PRECONFIGURED VS. CONFIGURABLE

Preconfigured Credenzas have all storage configurations and options built into one product code. Offered in single, double and triple configurations.

Configurable Credenza components can be used to create off-module configurations or open knee spaces along the workwall area.

credenzas

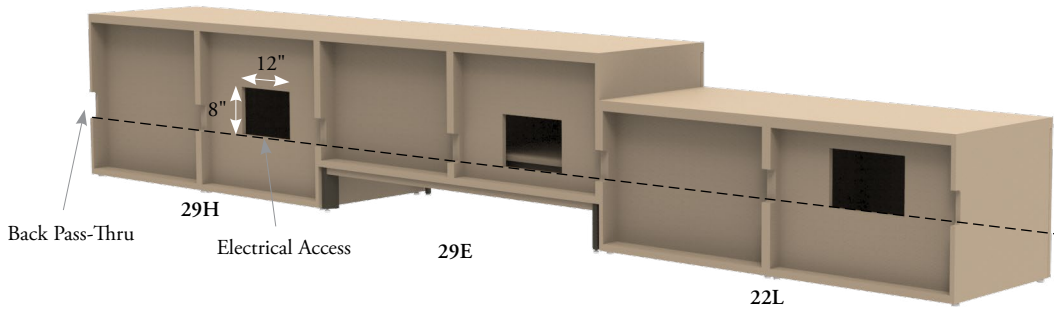

CABLE ROUTING & ELECTRICAL ACCESS

Back Pass-Thru cut out for cable routing are specified from the user's perspective and are available Left/Right or Both.

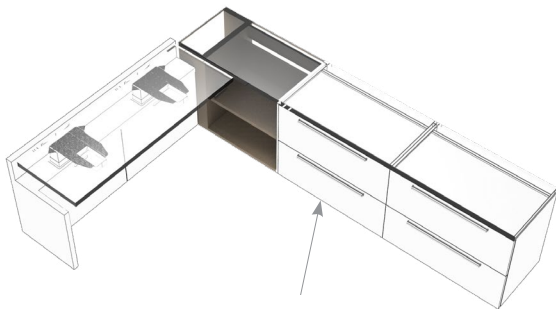

Electrical access can be specified with Open or Hinged Doors storage, and are included with all Printer storage.

Top Pass-Thru cut out for cable routing behind a wall-mounted element down to a credenza. This cut out will be concealed by the wall-mounted element.

The back of all credenzas are recessed 2" for drawer units and 3" for open or hinged doors. The backs are finished with a paper equalizer backer for applications against a wall only.

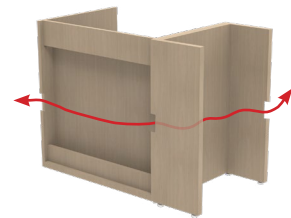

Open Connecting Cabinet (U) is utilized to anchor to an Electrical Access Box or Workwall access box without a cable.

CREDENZA TOP & END SUPPORTS / TRANSITIONS

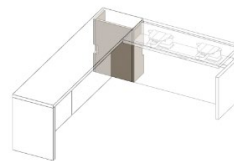

Credenza Top is paired with configurable cabinets, or supports to create an off-module credenza or open knee space along a workwall.

Electrical options are available Left, Right or Center. These options should only be positioned over Open and Hinged Door cabinets or open knee space with an Electrical Access Box.

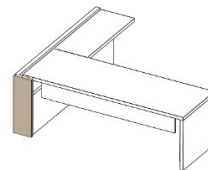

L-Panel (L)

Used to support a credenza top and create an open kneespace. Depth should match the credenza top.

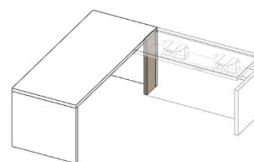

Connecting Gable (U)

Used to support a credenza top and create an open knee space in a corner of an L or U layout. Provides a continuous hidden cable path through the corner. Cable pass thru area is 9".

Cosmetic End Cap (C)

Used to cap off the workwall section of a 3-point Height-Adjustable Run-Off or Height-Adjustable Workwall Credenza for a cleaner aesthetic from the floor to the 29" height.

Connecting Gable (N)

Used to secure an electrical access box, 3-point Height-Adjustable Run-Off or Height-Adjustable Workwall Credenza to a fixed height desk in an L or U layout.

credenzas

CENTER MODULES & END SUPPORTS WITH EXTENSIONS

T-Gable, Center Support (T)

Supports center of a Credenza Top in an open knee space configuration with an unsupported span over 48".

Must be paired with an end support or cabinet on both ends of a configuration.

Size is always 12" wide x 12" deep only.

Extended L-Panel (L)

Supports the end of a Credenza Top in an open knee space configuration where an electrical access box is not desired.

Electrical Access Box, No Support (A)

Provides electrical access and cable management within a knee space.

Must be paired with an end support or cabinet on both ends of a configuration.

Depth is 9" and does not support the credenza top.

For widths 36", 42", 48" access box will have a single removable front panel.

For widths 54" and 60" access box will have two removable panels.

Electrical Access Box with End Gable (A)

Supports the end of a Credenza Top, and provides electrical access and cable management within an open knee space credenza.

Must be paired with an additional end support or cabinet to complete a configuration.

Depth is 9" and does not support the credenza top.

For widths 36", 42", 48" access box will have a single removable front panel.

For widths 54" and 60" access box will have two removable panels.

Credenza Top Spacer

Only used to support credenza top overlapping a low credenza (22-1/4"), which will bring the credenza top up to the 29" height.

Spacer can not be paired with a cabinet without a top.

Spacer depth should match the credenza top depth.

Spacer Height is 5-1/4".

Metal bracket will default to Ebony (52) finish.

U-Gable with Electrical Access Box (U)

Same as (A), but provides connection to a perpendicular access box, 3-point Height-Adjustable Run-Off, or Height-Adjustable Workwall Credenza in an L or U layout.

wall-mounted elements

OVERHEADS, WALL SHELVES, WALL PANELS & TILES OVERVIEW

Wall-mounted elements are affixed directly to a wall and offer additional storage, areas for display or writable surfaces.

Overheads, wall shelves and wall panels are affixed to the wall with wood cleats.

Wall Tiles are affixed to the wall with Metal Z-Cleats.

Overheads, wall shelves and wall panels have an overall 2" panel thickness. They also include a filler strip to conceal the wall cleats. The strip will match the panel or overall suite finish.

Wall tiles are 1" thick and do not require a filler strip.

When light options are specified, the wood cleats are split to create a channel for cable routing behind the panel.
